**Chád
Darby**

Course Objective

- Build a Full-Stack application with React and Spring Boot

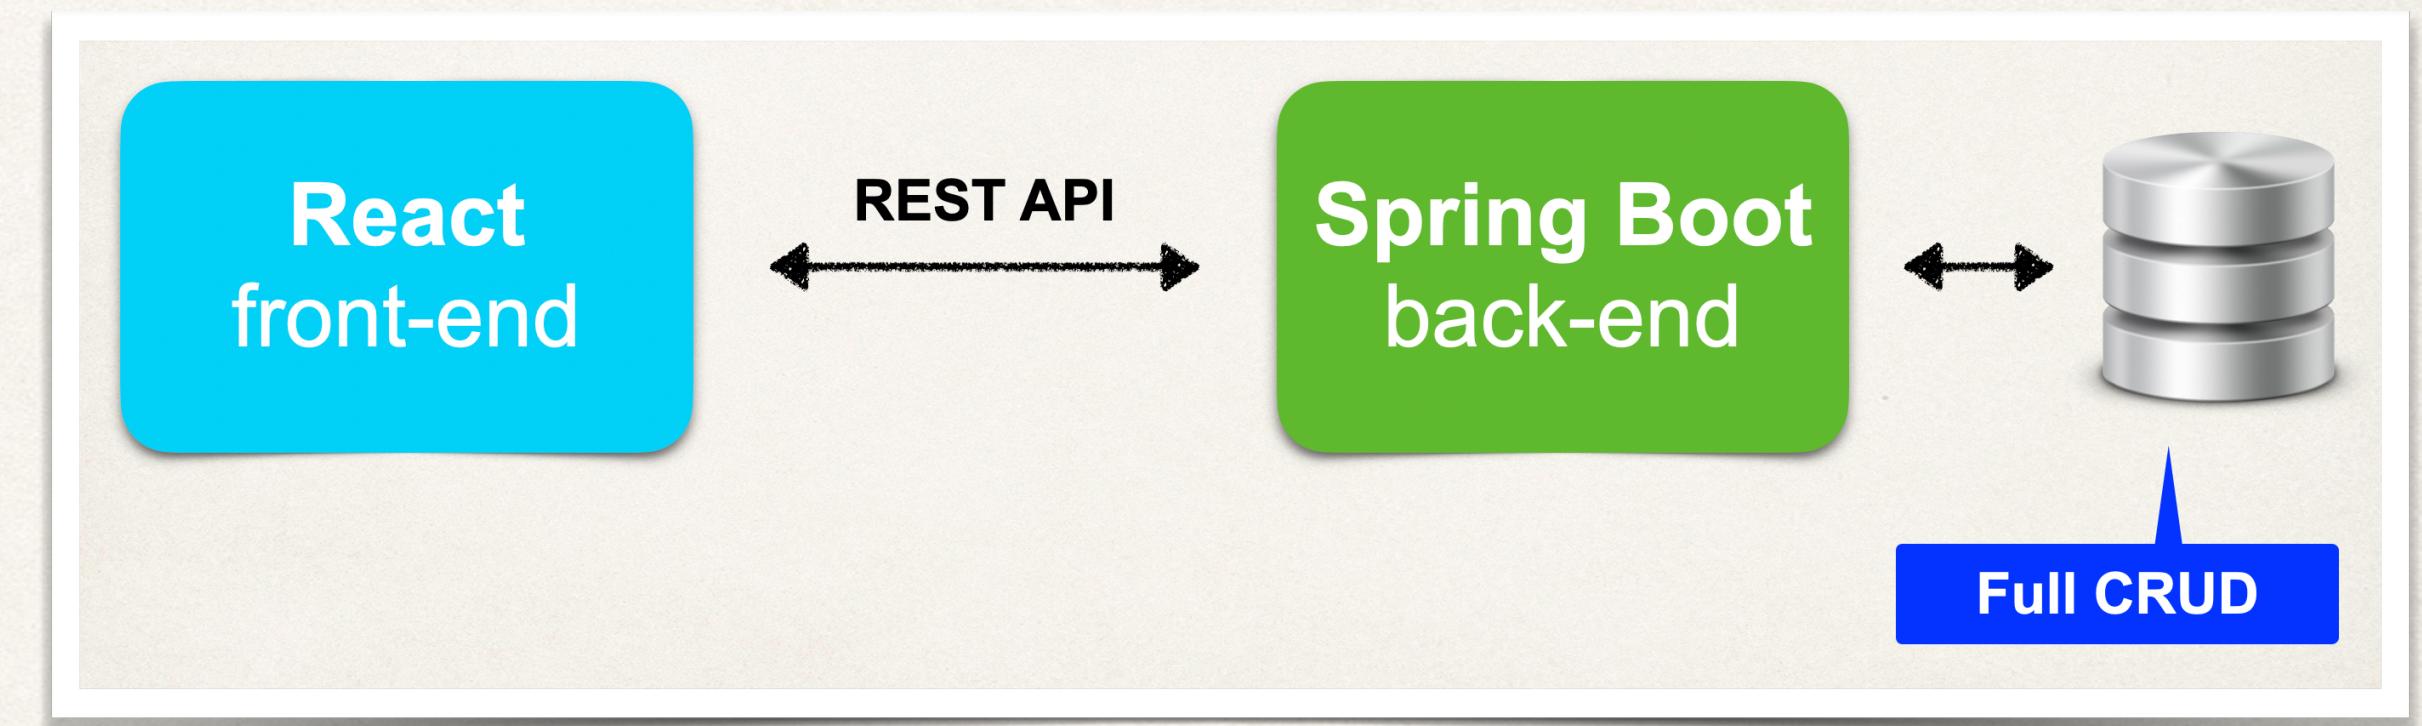

Prerequisites

- You should have prior experience with
 - Java
 - Spring Boot
 - Maven
- NO prior experience needed for React
 - We will teach you React from the beginning :-)
 - Not an A-Z coverage of React ... but enough to build Full-Stack apps

Spring & Hibernate for Beginners

Course Road Map

- React Overview
- Set up Development Environment
- React Crash Course
- TypeScript Crash Course
- Build Real-time App
 - Create React front-end
 - Develop Spring Boot back-end
